

Potential Summer Studentships in the Institute of Applied Mathematics

Students interested in potential summer research positions in the Institute of Applied Mathematics are requested to contact Dr. Bernie Shizgal at Shizgal@iam.ubc.ca:

The work envisaged will involve several different projects related to the development of web based instructional devices and demos on many aspects of applied mathematics.

Students that express an interest to participate will receive a copy of an application for funding on Monday, Nov. 26 and are asked to provide feedback by Friday, Nov. 30.
