

Name:

Name of account (or “none”) on Physics & Astronomy servers, e.g. hyper.phas.ubc.ca:

Note that if you answer “none” you should register for an account in Hennings 205 immediately (during our first lab session) and e-mail your account name to me at choptuik@phas.ubc.ca

Other machines/systems that you can access, especially laptops & home systems:
For home systems indicate what type of Internet access you have.

If you have a laptop, will you be willing to use it for (some) of the work in this course, including bringing it to the computer lab sessions?

If you have a laptop and/or home machine running Windows, would you be interested in installing Linux on one or more of your systems as an aid in completing course work outside of the computer lab? (the Linux installation would coexist with your Windows system)

Programming language you know best (or none):

Text editors and/or word processors that you are comfortable with:

Level of proficiency (use 0-5 for “none” through “fluent”) in:

Linux/Unix:

HTML/Web page authoring:

MATLAB:

Maple:

Mathematica:

C/C++:

Other programming/scripting languages:

Explorer/Firefox/Other Web Browsers (specify):
