

Name:

Name of account (or “none”) on Physics & Astronomy servers, e.g. `hyper.phas.ubc.ca`:

Note that if you answer “none” you should register for an account in Hennings 205 immediately (during our first lab session) and e-mail your account name to me at `choptuik@phas.ubc.ca`, or tell it to me in person during the lab.

Other machines/systems that you can access, especially laptops & home systems:
For home systems indicate what type of Internet access you have.

If you have a laptop, will you be willing to use it for (some) of the work in this course, including bringing it to the computer lab sessions?

If you have a laptop and/or home machine running Windows, would you be interested in installing Linux on one or more of your systems in part as an aid in completing course work inside and/or outside of the computer lab? (the Linux installation would coexist with your Windows system.)

Programming language you know best (or none):

Text editors and/or word processors that you are comfortable with:

Level of proficiency (use 0-5 for “none” through “fluent”) in:

Linux/Unix:

HTML/Web page authoring:

MATLAB:

Maple:

Mathematica:

C/C++:

Other programming/scripting languages (please list with level of proficiency):

Explorer/Firefox/Other Web Browsers (please list with level of proficiency):
